How to Delete a Page
Provided by ITCS Xtender Team

After logging into Xtender, run a query on the document you want to delete a page for in your application. **Note:** The document must have multiple pages to be able to delete a page.

**Deleting a Page**
1. After opening your document, click **Page > Delete.**
2. Click **Delete** when the confirmation box shows.

![Delete Page dialog box](image)

The page will be deleted and the next page will be displayed.

**Deleting Pages by Thumbnails**
Alternatively, you can also delete pages through the thumbnails.

1. Click on the page you want to delete.

![Page thumbnails](image)
To select multiple pages, hold down **Left Control** and click the pages you want to delete.

![Image of page selection]

**Note:** The pages that are marked with the check mark in the top left corner will be deleted.

2. Click **Delete** when the confirmation prompt appears.
3. It will then display a log of the documents that’s been successfully deleted out of Xtender.
